Dr. Bruce Shelton joined the Board by phone during this part of the meeting. Board members questioned him regarding aspects of the investigation and confirmed that he believed the scope of the investigation should be widened to include other patients that received infusions on the same day.

**VI. Review, Consideration and Action on Rules, Legislation, Substantive Policy Statements**

**A. Rules**

1. Chapter 38, Article 1, Section 103 through Section 115 – Status update

Mrs. Springer informed board members that the Governor's Regulatory Review Council would consider the Notice of Final Rulemaking at the Council's September, 2011 regular meeting.

She indicated a few minor changes had been requested by the rules analyst and that they would not substantially change any of the intended meanings.

2. Chapter 38, Article 2, Sections 201-206 – Status update  
The executive director noted that an exemption had been approved by the Governor's staff on July 20, 2011 and that rulemaking could proceed.

Dr. Rowe requested a presentation be made to the AZHIMA to inform them of the proposed rules.

## **B.. Legislation**

1. SB1175 Doctor of Homeopathy license – consider proposing legislation to amend A.R.S. 32-2912(B)

Dr. Rowe recused himself from this discussion.

Dr. Grout led the discussion that considered whether the Board should seek legislation to amend A.R.S. 32-2912(B), which was noted by the Governor's staff as an area of concern. Mrs. Springer explained that an applicant for the new license with actions against their professional medical license could theoretically apply. In response to a question from Drs. Grout and Ackerley, she confirmed that there are other mechanisms that would require the Board to review any actions taken by other states against a medical license. These include A.R.S. 32-2912( C ). Board members discussed the information and determined no additional action was necessary. They instructed Mrs. Springer to contact the Governor's Office and explain their deliberation.

## **VII. Review, Consideration and Action on Professional Business**

**1. Correspondence from Dr. Carol Barlow**, concerning the lack of an inactive fee for licensees was discussed. Board members noted that a previous discussion concerning an inactive status had been held two years ago. At that time it was determined that there were insufficient numbers of licensees to support this type of option.

Dr. Ackerley noted that an inactive fee would provide another alternative for doctors that want to maintain their license but who were not currently in active practice. There was an active discussion regarding the merits of both approaches.

The Board thanked Dr. Barlow for her comments and stated that further discussion at the next meeting should be held about all of the fees.

**2. Dr. Rowe commented that his re-appointment** was not yet confirmed and stated he would remain on the Board until a decision was made.

**3. Board members reviewed the continuing education** submitted for approval by Jeffrey Utter. Dr. Grout made a motion confirming the continued approval of Differential

Diagnosis of the Musculoskeletal System (16 hours) and Headaches and Other Head Conditions (4 hours). Dr. Adler seconded the motion that passed unanimously.

Dr. Grout made a motion approving new coursework entitled Pain Management and Palliative Care (6 hrs) and Record Keeping, Outcome Measures, Documentation, and Forms (10 hours). Her motion was seconded by Dr. Adler and passed unanimously.

4. **Protocols** submitted by Dr. Geoffrey Radoff were tabled to the next regular meeting.

5. There was considerable discussion concerning whether the Board would consider support of a legislative proposal by the Arizona Chiropractic Association to recognize the expansion of a chiropractor's scope of practice to include certification in the practice of homeopathy. Dr. Grout commented that recognition of the scope within the chiropractic profession would increase public recognition of homeopathic concepts. Dr. Adler expressed concern about the level of competency that would be brought into play by chiropractors interested in pursuing the certification.

No action was taken at this time.

## **VIII. Review, Consideration and Action on Other Business**

### ***Executive Director Report***

1. Mrs. Springer presented a brief overview of finances as of June 30, 2011. Current cash balance is \$44,373 and 89% of the working appropriation amount of \$116,900 has been spent. The current balance in the appropriated fund is \$16,240, the majority of which will not be spent, since part of this amount had been set aside for a retirement payout. She indicated that the Board had expenses of \$102,859 as of June 30, 2011. Revenues received to date totaled \$88,364.

There was a Operating Transfer to General Fund \$2200 which represents swept cash and appropriation to help balance the state's fiscal issues.
